13. Claims procedures

13.1 Actions to be taken in the event of incident

A claim for indemnity must be submitted to Chartis Finland within one (1) year of the date on which the claimant was informed of his/her right to obtain compensation, but within three (3) years period starting from event of incident. If no claim for indemnity is made within this period, the claimant shall forfeit his/her right to indemnity.

The claimant must provide Chartis Finland with the documents and information needed to assess Chartis Finland's liability. The notification must be made whenever possible on Chartis Finland's own form and must be signed. If the claimant has, after the insurance event, fraudulently provided Chartis Finland with erroneous or deficient information, which is of importance in investigating the insurance event, and Chartis Finland's liability, the indemnity can be reduced or disallowed, depending on what is reasonable in the circumstances. In cases which incur minor costs, it is recommended that the insured should first meet these costs himself/herself before subsequently applying for indemnity upon his/her return from the trip, presenting the original receipts.

13.1.1 The loss notification form must include the following information and attachments:

- policy number,
- attached travel ticket or other proof of trip,
- physician's certificate, duly dated and signed, with an accurate description of

the illness or injury,

- original receipts for goods, services, treatment and medication costs,
- in liability and traffic loss or damage, the address and any insurance information of the claimant and other parties concerned,
- bank account number and address of bank,
- in the event of loss of or damage to luggage, a copy of the claim form presented to the carrier and/or theft report presented to the police,
- in the event of theft, a report of the crime or the travel organizer's confirmation of the event,
- in the event of delayed luggage, a certificate issued by the airline and a certificate of the return of the luggage to the insured,
- in the event of death, the death certificate, the record of an autopsy, if any, and documents defining the beneficiaries (e.g. deed of estate inventory, extract from the personal register giving details of relatives),
- in the event of an accident, a description of the loss event and names and addresses of witnesses, if any,
- police investigation report, if any,
- date of examination carried out by a physician and the physician's address,
- if Chartis Finland has asked the insured to submit to an examination carried out by a physician, Chartis Finland will indemnify the insured for the expenses arising from the examination. In the event of indemnity paid on the death of the insured, Chartis Finland is entitled to request that an autopsy be performed, the costs of which will be paid by Chartis Finland.

13.1.2 Procedure for indemnification of medical treatment expenses.

In case of minor expenses, it is recommended that the insured meet these costs first and only then apply for the compensation, duly presenting the receipts and other relevant documentation proving the costs paid.

In case the medical treatment expenses should be covered by any kind of compulsory health insurance under the Lithuanian laws or relevant laws of any other applicable jurisdiction, the insured must apply for compensation to the relevant institutions, irrespective of whether Chartis Finland or the insured person himself/herself has already paid those expenses or not. The application for compensation under the Lithuanian relevant laws or relevant laws of any other applicable jurisdiction providing for the compulsory Health Insurance, as the case may be, must be submitted to the applicable Social Insurance Institution within the time period prescribed by relevant laws after the insurance event, but in no case later than within six (6) months of payment of the medical treatment costs by Chartis Finland or by the insured person.

In case the expenses shall be compensated by the compulsory health insurance and Chartis Finland has already paid the expenses, Chartis Finland shall have the right to the compensation paid by the compulsory health insurance.

The claimant must submit to Chartis Finland the original receipts for any compensation paid by the applicable Social Insurance Institution and copies of any

receipts submitted to the Social Insurance Institution by the claimant. Any receipts against which the claimant has not received compensation under the Lithuanian relevant laws or relevant laws of any other applicable jurisdiction providing for the compulsory Health Insurance, as the case may be, or any other act and which are then submitted to Chartis Finland must be original.

If the entitlement to compensation under the Lithuanian relevant laws or relevant laws of any other applicable jurisdiction providing for the compulsory Health Insurance, as the case may be, has been cancelled because the insured person has not filed due application, Chartis Finland will deduct from the indemnity the part that would have been paid under the Lithuanian relevant laws or relevant laws of any other applicable jurisdiction providing for the compulsory Health Insurance, as the case may be.

13.2 Fraudulent information

If the insured makes fraudulent statements, withholds or conceals anything, which may be of significance for the assessment of a claim, compensation shall not, as a rule, be paid.
